Note well that the information on this page is not intended to represent professional advice of any kind. It is provided as an example to show points that some have considered for inclusion in safety checklists and safety audits in specific situations and will not be relevant or accurate in all situations. Professional advice should be sought before acting or relying on any information provided on this site. Please see our terms and conditions for more information.

Example Safety Checklist for: General Safety Smarts

Applicability: Industrial/Warehousing

Safety is not rocket science and using common sense goes a long way to ensuring the safety of staff

Bullet Point Safety Checklist

- Ensure inexperienced personnel are placed with experienced personnel while learning
- Supervisors need to ensure additional supervision is in place for inexperienced personnel
- Never knowingly endanger yourself or others
- Report all incidents, injuries and near misses, regardless of their severity for the learning's they carry
- Engaging the right people with the right experience and attitude to ensure effective risk management
- Watch for exposed electrical wiring everywhere
- Ensure PPE is worn at all times.
- Don't expose employees to sharp edges and provide barricades and correct PPE
- Watch for trip hazards every where
- Before using any equipment, think about the task and ask yourself, "Can I be hurt?"
- Businesses need to ensure that where our personnel have limited skills and experienced, they are effectively managed.
